

The Professionals Choice for Inch Loss,
Body Contouring and Skin Tightening
ALL IN ONE SYSTEM

All of our equipment has Medical Certification and are serviced regularly. We attend regular up-date trainings.

We do not use Chinese Imported Equipment, as they do not reach British Safety Standards.

This Industry is no longer Regulated therefore it is so important for public safety to choose a safe clinic.

This Clinic is Licensed & Insured and provides treatments with CE & FDA Approved equipment only & although all users of class 3b & class 4 Lasers have been deregulated from having to be regulated by the Care Quality Commission (CQC) in October 2010; all previous guidelines are followed, still having an Expert Medical Practitioner (EMP) & Laser Protection Adviser (LPA) onboard for complete public safety. We have achieved 100% excellence in every audit. Any new regulations will be followed.

The Beauty in a Flash Clinic has attained and was awarded the governments Healthcare Standards Certificate. This is the most rigorous quality control procedure available to beauty salons/clinics who offer IPL/Laser or other 'Clinical' type services; We are proud to be one of only two clinics in Worcester to have been awarded this certificate.

If you are unsure of the different types of lasers and who needs to be regulated by the CQC etc; please contact Manager Eileen Grantham on
